

Clear 5th Panel Header / Five Panel Hanger

Perfect for creating a display that is certain to attract attention, clear 5th panel hanger boxes feature a basic hanger tab. These clear boxes can be custom printed and are ideal when used as retail point of purchase packaging for impulse buy items. With an oversized header card back panel there's plenty of room for graphics. Often used for cosmetics packaging, or for household and automotive parts to pet and garden products, these small product boxes can be displayed anywhere when attached to clip strips or placed on hooks.
